

Freestanding Hands-free Sanitiser Dispenser

**NEW
IMPROVED
DESIGN**

Premium British-built hand sanitiser dispenser unit with a classic brushed stainless steel finish. Ideal alternative to spoiling walls with wall-mounted units.

- Simple foot pedal operation for effective hygiene control. 100% mechanical action, no electric auto-sensors to go wrong.
- New improved anti-vandal one-piece tubular design is more stable and far stronger than folded metal square designs.
- Long life corrosion-resistant high grade stainless steel. Suitable for indoor or outdoor use.
- Free 1000ml refillable bottle included, made from 100% recycled plastic (supplied empty)
- Bottle is easy to fill using any hand sanitiser gel or liquid. Unit is also adjustable for other standard size bottles if required.
- A long-reach downward-facing dispenser pump means no more gel landing on your clothes!
- Height is 1000mm, column diameter is 114mm and base plate is 330mm wide
- Slots provided in base for bolting to floor for additional security if required (bolts not supplied, available on request)

Refillable 1000ml bottle

Downward-facing spout

Simple foot pedal operation
