The greatest wealth is health.

MediSeptic - Next Generation Hand Disinfection

MediSeptic Antiinfectant

MediSeptic

protect yourself everyday

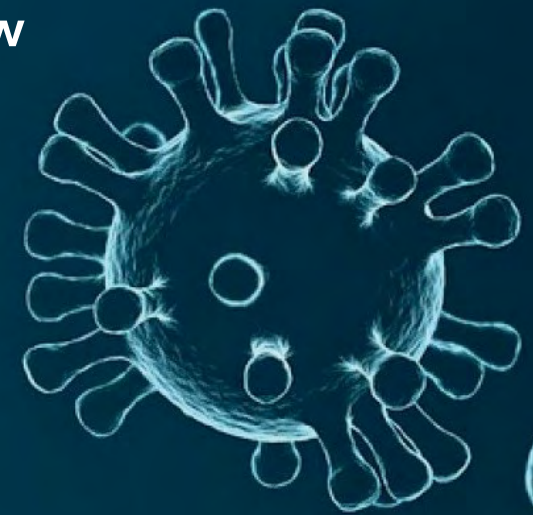

People's awareness of hygiene has increased greatly due to the Coronavirus pandemic!

MediSeptic

protect yourself everyday

Harmful viruses, bacteria and fungi are found in all areas of public life. 80% of infections are transmitted via the hand. On average, people touch their faces 3,000 times a day! In order to prevent new infections, especially in times of a pandemic, compliance with hygienic standards is critical. The WHO therefore recommends in its latest publication the installation of hand disinfection devices for ongoing prevention.

MediSeptic Antiinfectant A50

Hygienic hand disinfection according to DIN EN 1500

Through a unique combination of ingredients and a proprietary multi-step activation process, MediSeptic Antiinfectant A50 keeps viruses and bacteria away for at least two hours. This provides the safest protection against infectious diseases and germs available today:

- Virucidal, bactericidal, levurocidal
- Antimicrobial complex based on:
 - Water
 - Organic acids and salts
 - Essential oils
 - Cationic polymers
 - C-chain molecules (BKC)
- > log5 reduction in 15 seconds
- Skin-friendly and alcohol-free
- Non-toxic and non-hazardous
- Without surfactants and aldehydes
- Non-flammable

Touchless Hand Disinfection

Hygienic hand disinfection according to DIN EN 1500

MediSeptic has developed a highly innovative device which enables touchless hand disinfection within seconds and ensures even application and thus maximum protection. In combination with the MediSeptic Antiinfectant A50 for the first time in the history of hand disinfection it is possible to offer complete and lasting protection for at least 2 hours within seconds.

- Touchless application
- Disinfection of both hands in less than 2 seconds
- Electronic monitoring of application
 - Light reflection sensor
 - Real-time hand recognition
- Integrated thermal camera for temperature measurement (opt.)
- Animated operating instructions
- 15,6" display
- Voice guidance via integrated loudspeaker
- Motion sensors
- Optional playback of advertisement
- GSM and WLAN capable
- Device control via MediSeptic App

MediSeptic

protect yourself everyday

Unique branding opportunity with individual design

Unique 3-Pillar Concept

Antimicrobial Technology

- Alcohol-free, water-based disinfectant
- > log5 reduction in 15 seconds
- Effectiveness against bacteria and viruses
- Proven long-term efficacy
- Non-toxic
- Gentle on the skin and the environment

Dispersal Technology

- Touchless hand disinfection
- Application process under 2 seconds
- Integrated temperature measurement
- Electronic quality assurance with AI sensors
- Rugged design

Platform Technology

- Device control via APP
- Remote administration
- Live diagnostics
- Blockchain-secured data management
- Optional playback of advertisement
- Integration of access controls, time recording etc.

We offer solutions for various fields of application

Sports Venues

Gastronomy

Retail

Hospitality
