

PP-HSWB

hand sanitiser wall bracket

Use bracket to conveniently position bottles of sanitiser gel & liquid soap

Designed to hold bottles & dispensers

Features:

- > Easy and very simple to install
- > Strong enough to be continually used
- > Small enough to suit your individual environment
- > Optimum shape for the bottle is circular

Ideal for use in the following locations:

- > Personal protection screens
- > As part of free-standing sanitisation unit
- > Internal wall spaces in offices, factories, warehouses, schools, retail outlets
- > Entrance and exit points
- > Work Vans, Public transport

Application Instructions:

1. Install bracket to a clean, grease/grit free and dry vertical surface.
2. Remove siliconized release paper.
3. Position bracket and press firmly to ensure overall contact.
4. Allow 24hrs for a 90% bond.
5. Insert the bottle and use the Back2Back to secure it in place.
