TRADING ETHICALLY AND OPERATING RESPONSIBLY IS A FUNDAMENTAL PART OF OUR BUSINESS STRATEGY

Our main aim is to minimise the impact our operations have on the environment and the natural resources we consume.

We understand that our workforce is integral to achieving our business goals and we are fully committed to ensuring that all our worker's safety, human rights and wellbeing are respected. To achieve this, we have developed a new initiative with clearly defined short and long-term sustainability goals. We call this initiative **Portwest Planet**.

INDEPENDENT PARTNERSHIPS

Portwest products are rigorously tested and certified by accredited test houses and notified bodies including:

PORTWEST PLANET SUSTAINABILITY PROGRAMME IS UNDERPINNED BY FOUR STRATEGIC PILLARS.

1. ENVIRONMENT

We continuously strive to introduce low-carbon and green initiatives by increasing resource efficiency and designing more sustainable products.

In 2021 Portwest introduced a new eco-conscious range of products. Each of these products has been responsibly sourced and produced in the most environmentally friendly manner achievable. Look out for the Portwest Planet symbol throughout this catalogue which guarantees each product's green credentials.

Portwest has signed up to The UK Plastics Pact which will transform the UK packaging sector and help stop plastics polluting the environment. By 2025 we pledge that we will greatly reduce unnecessary single use packaging through redesign, innovation or alternative delivery models.

Portwest is undergoing STeP certification by OEKO-TEX®. Our aim is to further enhance and communicate our environmental and ethical measures which will enable all partners to understand our corporate social responsibility commitments.

It is Portwest's aim to respond meaningfully and take the necessary steps to address the ongoing threat of climate change.

ISO 14001 Environmental Management Systems

Portwest comply with ISO 14001 which means that we have worked hard to set up a fully integrated and proactive Environmental Management System. This system enables us to reduce our carbon footprint and better manage the impact of operational activities on the environment.

Our long-term goal is that all suppliers will be SEDEX compliant and WRAP certified and we are currently working with key suppliers to achieve this.

2. LABOUR AND HUMAN RIGHTS

Strong corporate and economic growth has enabled Portwest to drive progress and improve living standards for all workers throughout our business.

Portwest's fully owned factories are certified to the WRAP Gold Standard. WRAP is the world's largest, independent, factory based compliance programme for responsible production in the sewn product sector.

We use Lost Time Injury Rate (LTIR) as a way to measure and track our performance and we are ISO 45001 certified.

3. SUSTAINABLE PROCUREMENT

Portwest is a member of Sedex, one of the world's leading online platforms for companies to manage and improve working conditions in global supply chains. Our fully owned factories are audited using the Sedex Members Ethical Trade Audit (SMETA). SMETA is a social auditing framework that aims to support business practices across labour standards, universal rights, management systems and health and safety. Sedex and SMETA are underpinned by the Ethical Trading Institute and the Internal Labour Organisation.

4. ETHICS

As a global family-owned company, in business since 1904, Portwest is committed to conducting and growing our business in a sustainable and ethical manner.

We have a comprehensive learning and development programme in place and ask for 100% engagement in corporate ethics and anti-corruption and bribery training.

IT security is one of our top priorities, we are determined to protect business information for our suppliers, customers and staff. We follow the CIS20 set of best practice frameworks to achieve this.

85% of our garments carry the OEKO-TEX® STANDARD 100 label, guaranteeing that every component of this product has been tested for harmful substances.

We are a member of Sedex, one of the world's leading online platforms for companies to manage and improve working conditions in global supply chains.

INDUSTRIES

END TO END SAFETY SOLUTIONS

Over the past 100 years, our design experts have developed a deep understanding of the safety needs of workers across many industries. This experience has helped us to develop end to end safety solutions that are designed to meet the needs of each profession within that industry.

**CRAFT AND LIGHT

EXPERTS IN DESIGN

Our award-winning design and innovation team of over 40 designers and product managers deliver inspiring and contemporary designs that offer optimum protection and meet the everyday needs of the wearer.

INNOVATION IS IN OUR DNA

Continuous innovation ensures our protective wear meets the ever evolving demands of workers across multiple industries.

Our development includes the most advanced fabrics and tapes, uncompromising durability, increased certification, smart components and enhanced protective features to ensure wearer safety and enhanced job performance.

ALWAYS PUSHING BOUNDARIES

CUSTOM

YOUR IMAGE, OUR EXPERTISE

There are times when your requirements are so unique that only the professionals with over a century's worth of design experience can help. **Portwest Custom** is the solution, an end-to-end design service for bespoke safety products. Working hand in hand with customers, each year we get to create thousands of bespoke products for a variety of industries around the world.

- Over a century's worth of design experience
- Most bespoke orders are repeat business each year
- Market leading sampling and production capacity
- Stock holding in global warehouses
- Flexible payment terms with low deposit

**CUSTOM - WE LOVE TO

LET OUR EXPERTS JOIN YOUR TEAM

DESIGN EXPERTS:

- Our designers are the best in the business and true experts in their craft
- They can tailor existing products or design fully bespoke collections depending on each customers requirements and budget
- All designers can provide a technical review of existing designs or a full technical specification development service

PRODUCTION EXPERTS:

- Portwest factories have dedicated production lines for bespoke orders which gives us greater capacity and full control on lead times
- Dedicated sample rooms enable us to quickly produce product samples
- We take responsible and ethical production seriously. Our factories are WRAP certified, and we are members of Sedex and OEKO-TEX®

QUALITY EXPERTS:

- Every bespoke product is rigorously tested in-house and subsequently certified by accredited test houses and notified bodies
- Unrivalled sourcing capability with access to quality assured, ethical, accredited fabrics, materials and trims

PROJECT EXPERTS:

- Our team of experienced project managers will be your key point of contact throughout the project
- They will proactively keep you informed on progress from concept to order delivery

TESTING

GLOBAL CERTIFICATION

As a global manufacturer of protective wear, Portwest products are rigorously and independently tested to international standards and certified by accredited test houses and notified bodies across the world.

Internationally recognised, the CE Marking on a product indicates compliance with the essential requirements for health and safety as outlined in the PPE Regulation (EU) 2016/425. Portwest products carry this marking where applicable. End users of protective products should refer to PPE Regulation (EU) 2016/425 for the assessment of health and safety at work.

The UKCA (UK Conformity Assessed) marking is a new UK product marking that is used for goods being placed on the market in Great Britain. It covers most goods that previously required the CE marking, known as 'new approach' goods. At the time of print (2021), all Portwest products which carry the CE marking are also being tested & certified under UKCA. In Northern Ireland, products will carry both the CE and UKCA marks.

Portwest products are also tested to ISO, ANSI, NFPA and ASTM in the United States, AS/NZS in Australia, New Zealand. Work is in progress to test and certify some key products to ESMA in the UAE and the Russian EAC (TR CU 019/2011) standards.

FABRICS

Our fabrics need to work hard. They need to protect and be comfortable, stretch and be durable, perform and be skin friendly. Great care and consideration is given to the selection of each and every fabric that is used across the entire range.

Modacrylic fibres provide inherent permanent flame resistance, excellent dimensional stability and high elastic properties which allow garments to retain their shape. High cotton content gives the fabric comfort, warmth and a soft handle. Carbon fibre woven into the fabric gives inherent anti-static properties.

ANTI-STATIC
MODAFLAME™
FLAME RESISTANT

Made with 300 Denier 100% polyester yarn, this is a tough fabric for tough conditions. 300D fabric has superb abrasion and tear resistance. The double polyurethane (PU) coating on the inside makes the fabric durable and waterproof, and the outer has a water and stain repellent coating which helps keep the garment clean.

300D
OXFORD
WEAVE

Kingsmill™ cotton, polycotton and stretch fabrics have been constructed to a high specification and are the ideal choice for your workwear needs. They have excellent dye retention, tensile and tear strength and a high pilling resistance. Garments made from a Kingsmill™ fabric have a UPF rating of over 40+ so will block 98% of the UV rays which fall on the garment.

KINGSMILL™

This high performance fabric has been engineered to provide a technical barrier against the elements providing the maximum waterproof, breathable and windproof protection. The microporous fabric delivers exceptional stretch characteristics. The exterior fabric surface is treated with a Texpel finish to protect against water and oil stains.

PORTWEST

FEATURES

MARKET LEADING COMPONENTS AND DESIGN FEATURES

The latest research and technology, coupled with premium fabrics and components ensure complete worker protection.

As industry demands evolve we continue to innovate. Our HiVisTex Pro retroreflective tape can withstand 50+ washes. ID card holders feature on both garments and head protection to allow for quick identification. Stretch and reinforced panels allow ease of movement with added durability. Taped and welded seams keep you dry in all weather. Adjustable hems, elasticated cuffs, and innovative wire lace fastening systems all ensure a safe fit.

MADE FOR WOMEN

FIT FOR PURPOSE

When creating protective wear for women, our designers are focused on reducing risk and increasing comfort, allowing workers to do their job unhindered. Garments are designed in line with average women's measurements such as height and arm length, thus reducing the risk of tripping or snagging. Additional tailoring around the waist and hips ensures maximum comfort over long periods of time.

DYNAMIC STRETCH

Stretch your limits with Portwest's most dynamic workwear collection yet. This contemporary collection combines all the technical features required of modern workwear, with many clever innovations to ensure the wearer achieves maximum function and style. The DX4™ collection combines high performance stretch fabrics with robust oxford panels to provide unparalleled ease of movement and supreme flexibility. What defines this collection is the cutting edge designs which allow for a full crossover from work to leisure activity.

Portwest's cutting edge Kingsmill™ Polyester Stretch is a four-way stretch fabric made from 93% polyester, 7% elastane. This blend provides ease of movement and effortless comfort in active use. The fabric delivers technical superiority with high breathability, moisture wicking and fast drying properties. A UPF rating of 40+ will block 98% of the UV rays.

Stay protected with CorePro™ panels that are precision engineered in high wear areas to provide the highest levels of abrasion resistance and durability. Tested to 100,000 rubs, this hardwearing fabric ensures maximum longevity in the toughest environments.

TECHNICAL **STRETCH** WORKWEAR

Portwest WX3™ technical stretch workwear balances comfort, versatility and aesthetics. Products are designed to the highest standards and offer a solution for everyday activity and working environments.

Constructed with cutting edge fabrics giving superior abrasion resistance and exceptional all-day comfort. Ingenious design solutions on fastenings and pocketing systems give unrivalled fit and security.

Stay protected with CorePro™ panels that are precision engineered in high wear areas to provide the highest levels of abrasion resistance and durability. Tested to 100,000 rubs, this hardwearing fabric ensures maximum longevity in the toughest environments.

Kingsmill Polycotton Canvas is constructed using 65% Polyester, 35% Cotton Canvas 280g with a Peach Finish. This blend offers the ultimate in durability and performance. The fabric finish gives the garments an ultra-soft handle for all day exceptional comfort.

Ezee Zip™ is a highly innovative zip technology available exclusively from Portwest. It brings to the market the first major innovation in zip fastening technology for a century. Ideal for left or right handed users, Ezee Zip is easy to work and securely fasten.

Portwest continues to push the boundaries in sustainable workwear with the introduction of eco-conscious products to the WX3 collection. The use of certified recycled or sustainable fabrics and trims, where possible, ensures minimal impact on the environment.

Garments are designed for maximum comfort and performance but with a clean line involving minimal stitching details and reduced waste. All WX3 products that are made in Portwest owned factories are OEKO-TEX® STANDARD 100 certified.

KX342

ACTIVE **STREET** WORKWEAR

Portwest KX3™ is a superior line of trend-led apparel combining quality construction to the highest standards and technical fabrics.

Key characteristics within this collection include abrasion resistance, moisture management and stretch fabrics for sustained agility and effortless movement. All KX3 garments have been designed to fully complement each other to allow a personal layering system to be built. A perfect solution for modern workwear.

Portwest's cutting edge Kingsmill™ Polyester Stretch is a four-way stretch fabric made from 93% polyester, 7% elastane. This blend provides ease of movement and effortless comfort in active use. The fabric delivers technical superiority with high breathability, moisture wicking and fast drying properties. A UPF rating of 40+ will block 98% of the UV rays.

Portwest's innovative two way Kingsmill™ Polycotton Stretch fabric is constructed from 65% polyester, 35% cotton. This premium workwear fabric offers excellent abrasion and tear resistant properties whilst the mechanical stretch function ensures full ease of movement for the wearer. A UPF rating of 40+ on this fabric blocks 98% of the UV rays.

Kingsmill™ Cotton Stretch is a premium cotton stretch fabric. This twill weave blend of 98% cotton and 2% elastane provides the ultimate in comfort and flexibility. The high cotton content gives an ultra soft handle, and the added elastane delivers ease of movement. This fabric has a UPF rating of 40+ to block 98% of UV rays.

PERFORMANCE WORKWEAR

PERFORMANCE WORKWEAR

Portwest PW3™ contemporary workwear blends sports and lifestyle trends with function, a modern fit and improved comfort. Utilising premium fabrics, products are engineered for flexibility across a diverse range of industry and trade end uses and offer exceptional value.

HiVisTex™ PRO

HiVisTex™ Pro retroreflective tape offers excellent freedom of movement due to its segmented construction. Lightweight and flexible this high performance heat applied tape has thousands of glass beads per centimetre squared which work like thousands of tiny mirrors reflecting light back towards its source.

Kingsmill™ Polycotton innovative stretch fabric is constructed from 65% polyester, 33% cotton and 2% elastane. This premium workwear fabric offers excellent abrasion and tear-resistant properties whilst the stretch function ensures full ease of movement for the wearer. A UPF rating of 40+ on this fabric blocks 98% of the UV rays.

Portwest Extreme™ is a premium high performance rainwear fabric constructed from 100% Polyester, 300D Stretch Oxford 200g and offers superior comfort, function and endurance in all weather conditions. Waterproof, breathable and windproof to the highest standards, this fabric far exceeds the requirements of EN 343 Class 4:4.

Texpel™ SOS, Splash, Oil and Stain is a premium fabric finish which repels oil and liquids, causing them to bead up and roll off the fabric surface. The finish also helps release stains in the washing process, keeping garments looking cleaner for longer.

Ezee Zip™ is a highly innovative zip technology available exclusively from Portwest. It brings to the market the first major innovation in zip fastening technology for a century. Ideal for left or right handed users, Ezee Zip is easy to work and securely fasten. Constructed using the highest quality components and engineering, Ezee Zip guarantees no more fraying or broken zips.

INSULATEX™
THERMAL INSULATION

INSULATED WITH INSULATEX LINING

Constructed using hollow fibre technology, Insulatex™ provides a lighter and warmer thermal lining. The unique fabric technology locks in the body's warmth to create a thermal barrier whilst the high-performance fine knit offers superior lightweight comfort to the wearer without adding bulk.

FLEX SHELL JACKET

PW3 FLEX SHELL

Portwest PW3 Flex Shell fabric is the latest evolution of soft-shell fabrics to deliver maximum performance and protection from the weather. This highly durable 3-layer laminate fabric is water repellent and windproof with a stretch finish. Incredible suppleness offers outstanding user comfort. With low weight to high warmth ratios, the soft mesh inner face feels dry and comfortable next to the skin during extended periods of wear.

ULTIMATE HAND PROTECTION

An advanced new collection of hand protection, with an expertly designed fit, providing maximum dexterity for precision handling.

Made from sustainable materials, this collection is eco-conscious while offering ultimate protection. Packed with advanced features that offer unrivalled grip, maximum comfort and cut protection. The collection also features advanced 360 breathability technology to maintain a comfortable hand temperature and touch screen functionality. All the innovation, design and quality you should expect in modern hand protection.

SUPERIOR FIT - MAXIMUM DEXTERITY

Innovative designs that offer superb fit and maximum dexterity level 5 giving exceptional freedom of movement

ECO-CONSCIOUS

Made from recycled PET, each glove repurposes a 500ml plastic bottle, keeping it from landfill. In addition, they are sustainably made, using lower CO2 emissions, lower energy and water consumption than is used in manufacturing of other similar gloves.

FEATURE-RICH DESIGN

Combining grip, cut protection and touch screen capability, giving you impressive all-round modern hand protection.

PREMIUM CUT PROTECTION

NO STEEL AND GLASS FIBRES

AN UNRIVALLED COLLECTION OF UNIQUELY COMFORTABLE ULTRA-LIGHT AND BREATHABLE CUT PROTECTION.

The CT Series collection of cut resistant gloves is unlike any other offering on the market. Using innovative fabrics and production techniques, these gloves are uniquely comfortable, ultra-light, breathable and flexible.

DyUltra is a new cut resistant material developed to provide the highest level of abrasion resistance in the market, stronger than para-aramids.

This low weight fabric offers superior comfort whilst capable of providing cut protection beyond EN388:2016 Level F. It comprises high grade ultra-high molecular weight polyethylene (UHMWPE) materials which are 15 times stronger than steel. Flexible and comfortable to wear, it does not absorb moisture or lose its shape or performance even after 10 washes.

NO STEEL AND GLASS FIBRE

The CT Series collection is free from glass and steel fibres, ensuring they can be worn over long periods without skin irritation, these gloves are OEKO-TEX® certified for maximum skin-friendliness.

RETAINS CUT RESISTANCE UP TO 10 WASHES

Our innovative fabric construction ensures cut resistance levels are retained for up to 10 washes, as independently tested.

FULL RANGE OF CUT AND DEXTERITY LEVELS

This premium offering is certified to EN388:2016 and available in cut levels from level C to level F, and a range of gauges 7,13,15 and 18. Under the American ANSI standard, cut levels range from A3 to A8.

BASE PROTECTION AND PORTWEST

A NEW STORY HAS BEGUN

Portwest and Base Protection have joined forces to be your single source for innovative protective wear. Today, this partnership is a reference point for those who seek comfort and protection.

FEEL THE COMFORT

By **PORTWEST**

TECHNOLOGIES

COMFORT IS OUR MISSION

At Base Protection, comfort inspires us and is at the core of everything we do.

Comfort means designing and manufacturing footwear that reduces fatigue while increasing protection in hazardous situations and improving the lives of those who wear it.

- 33"- 84CM - TALL
- 36"- 92CM - XTALL

KEY SYMBOLS

Stretch panelling

This symbol indicates the garment has stretch panelling in key movement areas for greater flexibility.

CE certified

This symbol indicates conformity of essential health and safety requirements as set out in European Directives.

UKCA marked

This symbol indicates UKCA marking in progress at time of print. All products placed on the UK market from January 2023 must be UKCA marked.

Phone pocket

This symbol indicates that a mobile phone pocket is included in the garment.

Print access

This symbol indicates that garments have print/embroidery access.

Interactive garment

This symbol indicates zip-in fleece or vest feature to create a one-piece garment.

Two-way zipper

This symbol indicates that the zip can be opened from the top or bottom of the garment.

Reversible garment

This symbol indicates that garments are reversible.

Breathable garment

This symbol indicates the garment is made of a high performance breathable fabric.

Half elasticated waist

This symbol indicates a half elastic waistband which allows for all-day comfort for the wearer.

Fully elasticated waistband

This symbol indicates a fully elasticated waistband on the trouser which allows for all-day comfort for the wearer.

Knee pad pockets

Many of our products incorporate knee pad pockets. These garments have been developed to carry our range of ergonomically designed knee pads.

Taped seams

This symbol indicates that the garment has taped waterproof seams.

Welded waterproof seams

This symbol indicates that the garment has high-frequency welded waterproof seams.

Certified after 50x washes

This symbol indicates compliance with EN ISO 20471 after 50 washes*

*Minimum requirement under the EN norm is 5 washes

Dual ID holder

Dual ID holder allows use of both portrait and landscape ID card display

Anti-scratch design

Anti-scratch design with no exposed metal parts

Detachable lining

This symbol indicates that the garment has detachable lining.

Internal tablet pocket

This symbol indicates that an internal tablet pocket is included in the garments which carry this symbol.

Free spec cord

Free spec cord with styles showing this symbol.

Knitting Gauge

This symbol denotes the knitting gauge of the fabric.

Multiple storage pockets

This symbol indicates that the garment is designed with multiple pockets.

Anti-scratch

Surface coating intended to mitigate scratch effects on the lens

Anti-fog

Surface treatment which helps reducing fogging effects on the lens.

Lateral deformation

Optional test for safety helmets, it indicates the resistance to lateral compressions.

Molten metal

Optional test for safety helmets, it indicates the resistance to molten metals and hot solids projection.

RIS symbol

This symbol indicates that the garment meets the rail industry standard for high visibility warning clothing.

FR tape

Indicates that the garment has flame resistant reflective tape.

Heat applied reflective tape

This symbol indicates that the garment has heat applied reflective tape

Vending ready

This symbol indicates that this product has been individually packed for vending machines.

100% metal free

100% metal free

Ventilation ports

Ventilation ports for maximum breathability

Radio loop

This symbol indicates that the garments have a radio loop for easy attachment of a radio.

Concealed detachable hood

This symbol indicates that the garment comes with a detachable hood

Hood

This symbol indicates that the garment comes with a non-detachable hood.

UPF 40+

40+ UPF rated fabric to block 98% of UV rays

UPF 35+

This symbol indicates the fabric has a UPF rating of 35+ so will block 97% of the UV rays which fall on the garment.

1 layer

This symbol indicates that the garment is unlined and is made using only the outer layer of fabric.

2 layer

This symbol indicates that the product has 2 layers - an outer and an inner layer.

3 layer

This symbol indicates that the garment has 3 layers - an outer, a mid and an inner layer.

Holster pockets

Swing away tool pockets

Touchscreen glove

This symbol indicates that this glove can be used with most mobile touchscreen devices.

Heat applied flame resistant tape

This symbol indicates that the garment has heat applied flame resistant reflective tape

FR,IW

Indicates that the garment has double-stitched, industrial wash, flame resistant reflective tape.

PRODUCT FEATURES

 NEW FEATURE IMPROVED Indicates an improvement to the existing product.	 5XL 5XL Indicates the size range of the product from smallest to largest size.	 MADE FOR WOMEN Made for women This symbol indicates that the products have been designed for a women's fit with their safety in mind.	 CE CAT III Indicates the product is CE marked as a Category 3 item for complex design.
 NEW COLOUR New colour Indicates that a new colour/colours have been added to the style.	 NEW New style This symbol indicates a new product has been added to the brochure.	 PLANET Portwest planet This symbol indicates eco conscious products made using certified recycled or sustainable fabrics or materials.	 3-IN-1 Multi-way Garment This symbol indicates the garment is multi-functional and can be worn different ways.
 European flag This symbol indicates that the product is manufactured in the European Union.	 PET bottles used Indicates the number of PET bottles used, calculated using a 550ml bottle and based on a size L product.	 MATERNITY FIT Maternity Fit This symbol indicates products that have been specifically designed for pregnant women.	 PADDED Padded This symbol indicates the garment is padded to trap the heat and increase warmth.
			 LINED Lined This symbol indicates the garment is lined for added warmth and comfort.

PRODUCT DETAIL SYMBOLS

 Fabric This symbol indicates garment fabric details.	 Wadding This symbol indicates the garment wadding details.	 Z-Colour This symbol indicates the very deep dye colours within that product range.
 Contrast Fabric This symbol indicates the garment contrast fabric details.	 X-Colour This symbol indicates the standard colours within that product range.	 Upper This symbol indicates the material used in the upper of the product.
 Lining This symbol indicates the garment lining details.	 Y-Colour This symbol indicates the deep dye colours within that product range.	 Sole This symbol indicates the material used in the sole of the product. The F code refers to the outsole design e.g. F12.

PACK & CARTON QUANTITY

 Carton Quantity This symbol indicates the quantity of products in a carton which do not have inner boxes.	 Garment Hanger This symbol indicates products are packed with a hanger and retail packaging for display in retail outlets. Ask the sales team for more information.	 Retail Bag This symbol indicates that this packaging aids product presentation for retail sales. All other styles are packed in flat-pack plastic bags to keep items clean. All products have barcodes. Ask the sales team for more information.
 Retail box Indicates that the item is shipped with a retail box to aid product presentation for retail sales.	 Retail Tag This symbol indicates that this item is shipped with a retail tag to aid product presentation for retail sales.	 Blister packed This symbol indicates that items are blister-packed for retail sales.

PACKING QUANTITIES

This indicates how many products are packed per box and carton. All of our products are sold one size and one colour per carton.

B = Inner Box
C = Outer Carton
P = Pallet

Unit of Sales (UOS)
This is the minimum order quantity of a product. Unless indicated otherwise the UOS is normally one piece or one pair.

Example 1
10 = Inner Box
200 = Total Outer Carton Quantity
Example 1
UOS=1
In this case the UOS = 1 piece
Where pack symbols are coloured orange the UOS is greater than 1.

Example 2
100 = Inner Box
500 = Mid Pack
3000 = Total Outer Carton Quantity
Example 2
UOS=3000
In this case the outer carton quantity is the UOS and is colour coded orange to show this. Ordering 1 unit = 3000 pieces when the order is placed.

Example 3
10 = Inner Box
x30 = Total Outer Carton Quantity (300)
Example 3
UOS=10
In this case the inner box is the UOS and is coloured orange to show this.

Example 4
50 = Inner Box
x10 = The Number of Inner Boxes Per Mid Pack
x6 = The Number of Mid Packs Per Carton
Example 4
UOS=50
Inner Boxes Per Carton (10x6 = 60)
Number of Individual Pieces Per Carton (50x10x6 = 3000)
In this case the inner box is the UOS and is coloured orange to show this.

Examples of units of sale (UOS)
1 = Singles = Garments, specialist gloves sold in singles
2 = Pair = Footwear, most gloves
B = Inner box = Disposable gloves
C = Carton = Biztex, Disposables, A800 gloves

REGISTERED COMMUNITY DESIGNS

INNOVATIVE
DESIGN IS AN
INTEGRAL PART
OF THE PORTWEST
PRODUCT
DEVELOPMENT
PROCESS

Our designs are a combination and integration of function and fit with many design elements including colour, texture, space, lines, pattern, silhouette, shape, proportion, balance and emphasis.

Our flagship designs are registered as a Registered Community Design with EUIPO – European Union Intellectual Property Office.

A listing of our registered community designs can be found at: www.portwest.com/registereddesigns

MERCHANDISING

CREATE A STRONG PRESENCE AND DRIVE SALES

Engage customers and drives sales with display units from our comprehensive suite of merchandising and point of sale products

They are versatile, flexible and easy to use. We will work with you to design and create the perfect retail space that shows off the brand and helps you sell more products.

Portwest Planet is an initiative that ensures that every worker across our business knows what their responsibility is towards reducing the impact our operations have on the environment. Portwest has defined short and long term sustainability goals that will enable us to deliver on our commitment to trading ethically and operating responsibly.

PRODUCT INNOVATIONS

In 2021 Portwest introduced a new eco-conscious range of products. Each of these products has been responsibly sourced and produced in the most environmentally friendly manner achievable. Look out for the Portwest Planet symbol throughout this catalogue which guarantees each product's green credentials.

DURABILITY

Products that last longer help the planet because they do not need to be replaced as often. Portwest only uses top quality fabrics, components and trims which means that our products are built to last even when used in harsh conditions.

RESPONSIBLE DESIGN AND MANUFACTURING

The use of certified recycled, organic or sustainable fabrics, where possible, ensures minimal impact on the environment. Garments are designed for maximum comfort but with clean lines that means less stitching and less waste. 85% of all Portwest garments are OEKO-TEX® approved.

INDEPENDENTLY TESTED AND ACCREDITED

Portwest products undergo rigorous testing to ensure we meet and exceed global safety standards. Our fully owned factories undergo independent audits from accredited bodies to ensure we make every effort to minimize any environmental impact.
